SAFE DRIVING, SAFE WIPER
FU GANG WIPER SYSTEM MANUFACTURER

MOON All series windshield wiper blade 100% made in Taiwan

RUBBER REFILL

Rubber Specification

Rubber profile			
Width of rubber body	6 mm	8 mm	9 mm
Blade size	14 - 22	24 - 28	14 - 30

Rubber Material

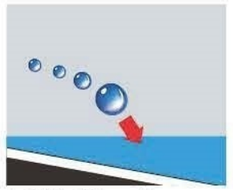

Material	NR	NR CR	Siflon WATER REPELLENCY
Price	Low	Medium	High

POWER OF Siflon

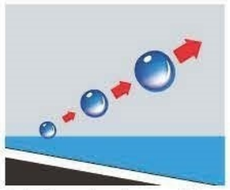

With MOON Siflon Rubber

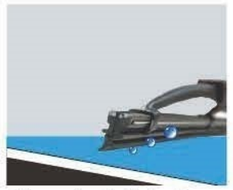

Wiper rubber actively coats windshield with invisible

Invisible Siflon rubber makes the windshield water repellent

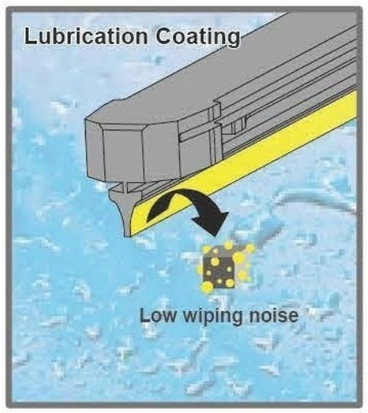

Raindrops bead up and fly off the windshield while driving

Siflon extends blade life and provides streak-free wiping action

Rubber Surface Coating

Graphite

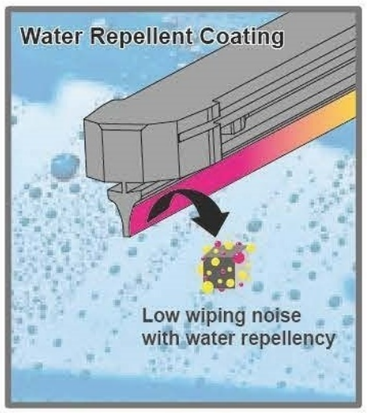

▶ SEM: Rubber surface

SEM: Rubber surface with graphite modification ◀

Water Repellent

WIPER BLADE

Hybrid Series

- Super streamlined shape / Reduced wind-lift
- Increasing durability, reducing chattering
- Eco-product, material recyclable
- Revolutionized wiping quality
- Multi-curvature rail spline

WIPER BLADE

WINDSHIELD CHEMICAL

Wiper Chemcial Series

Windshield Washer Fluid Additive

The reliable cleaning additive for the windscreen washer unit. Removes oil, soot, road salt and other typical dirt. With outstanding cleaning power for rapidly removing smears. Suitable for fan spray nozzles. Does not affect paintwork, chrome, rubber or plastics.

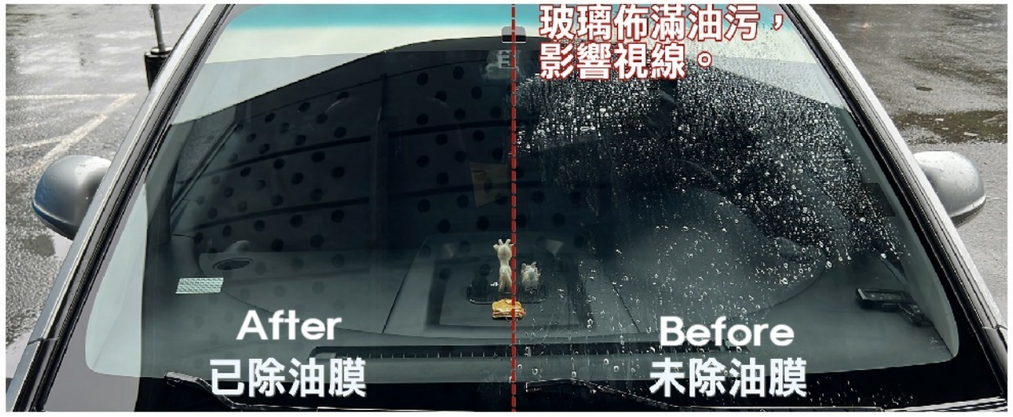

Windshield Refresh Cleaner

Windshield Refresh Cleaner combines 2 kinds of ceramic powders which are able to penetrate persistent oil-film which conventional surfactants cannot. This product is best used when preparing glass for a coating. A fitted hand sponge is included.

Class Surface Cleaner

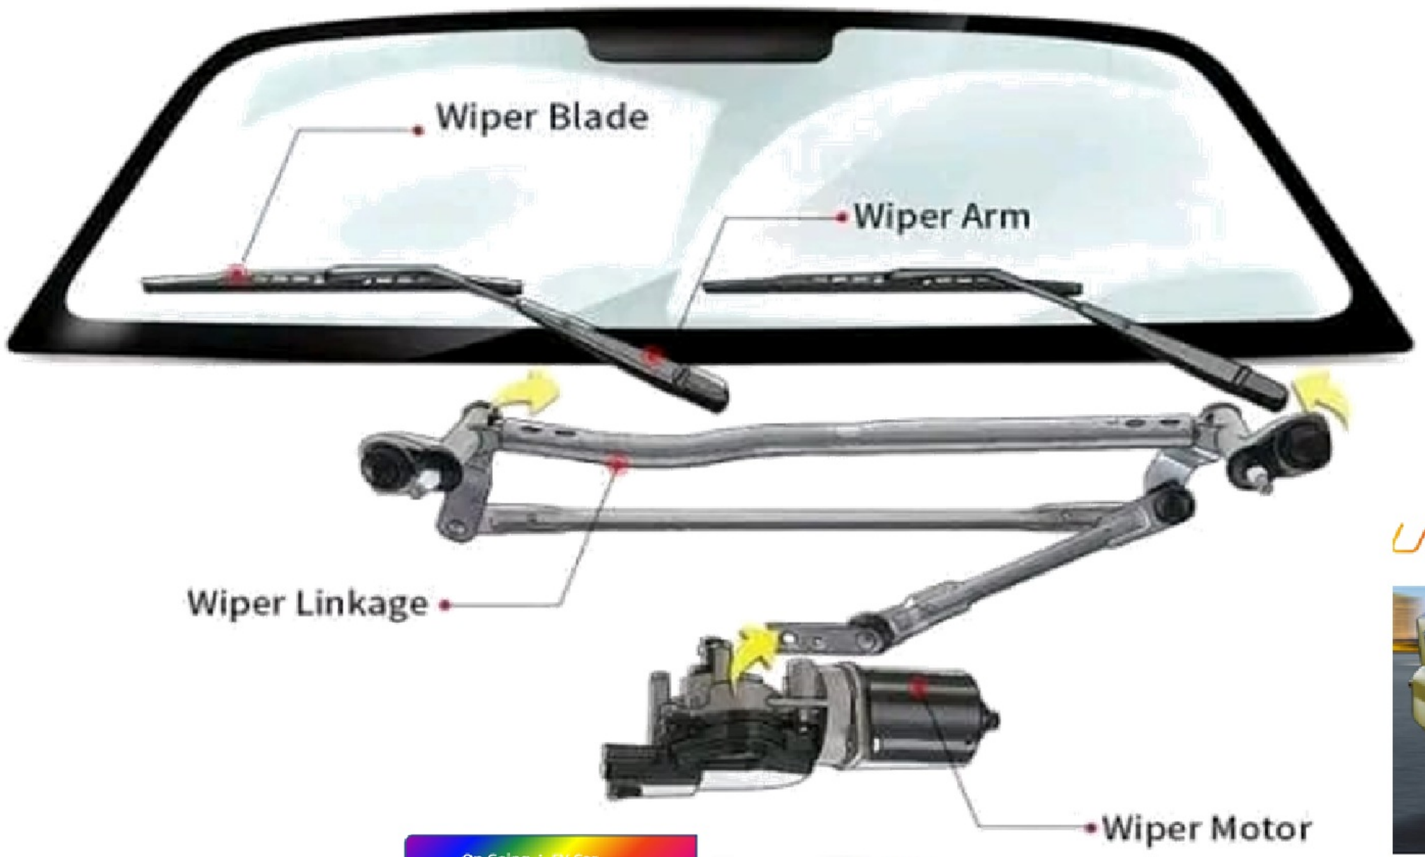

Featuring pure water technology, the especially powerful glass cleaner ensures an improved wetting of the glass surface. Thus, without leaving any residue, it efficiently removes oil and soot films and insect residue on the windscreen. Also ideal for household use, cleaning windows and mirrors. Quick, simple and residue-free cleaning thanks to the use of demineralised water.
